

Model MT160

Monitor Tester

TEST INSTRUMENTS

Model MT160 monitor tester is the perfect tool for those who need to quickly and easily troubleshoot, test, or align **PC and Mac** computer monitors. It features a wide range of testing resolutions ranging from 640x350 to 1280x1024. The video patterns generated by the MT160 provide accurate and comprehensive monitor troubleshooting and testing. Three separate monitor connectors output eliminates the need for any additional adapter. User friendly interface for easy operation.
